How to Use This Basket

A calm 20-30 minute rhythm to start your winter mornings together.

Name: _____ Date: _____

1. Gather

Light a candle or pour cocoa, and sit together. Read the poem aloud.

2. Look outside

Check the weather and record it in the Weather Log.

3. Notice

Use a nature page: walk, sketch, or tally the birds you see.

4. Practice

Do one short skill page: copywork, math game, or the reading log.

5. Share

Each person names one thing they noticed or are thankful for.

Tips

Print the weekly checklist and the logs once; print journal and game pages as often as you like. Older kids can write full sentences, while younger kids can draw and dictate. There is no wrong way to notice nature.
